

Schedule of Fees
NSAI Agrément Approval Scheme
Approved Installer – Blown Loft/Cavity Wall Insulation Systems

- Assessment/Surveillance of one installer team against one NSAI Agrément Certificate - €1,500
- Assessment/Surveillance of an installer against additional Agrément Certificates will incur an additional charge of:
 - €750 per additional Certificate when assessments are performed on the same day
 - €1,500 per additional Certificate when assessments are performed on different days
- Installers operating more than one team will incur charges as follows:
 - €750 for each additional team when the assessment of each team is performed on the same day
 - €1,500 for each additional team when the assessment are performed on different days
- Installers who apply to change from the installation of one Certificate Holder's insulation system to another are eligible to the following charges:
 - For applications made with 6 months of previous audit, a charge of €750 will apply. No re-audit will be required.
NOTE: This only applies when the same product type is to be installed, e.g. changing from one EPS bead to another EPS bead. If the product type is to change, e.g. changing from EPS bead to rockwool, a full audit charge of €1,500 will apply.
 - For application made after 6 months of previous audit, a charge of €1,500 will apply. A full re-audit of the installer will be required.

Note 1: All charges stated above are subject to VAT @ 21%.

Note 2: When an installer changes from one insulation system to another, their Registration Number will be revised to reflect the new system being installed.

Note 3: An additional charge will apply if an installer has to be revisited in the same 'Surveillance Year' due to a 'Non-conformance' finding.
