

Standards Information Service

If you or your organisation regularly buys standards then read on.

The Standards Information Service (SIS) is aimed at organisations that purchase many copies of Irish Standards (I.S.), incl. adoptions of European and /or international standards.

This is a SUBSCRIPTION service. Organisations are charged based on the number of employees or the type of organisation. The schedule of fees is available to view on: www.nsai.ie

Subscription to the SIS provides your organisation access to the following benefits:

- 40% discount for Subscribers on the list price of all Irish Standards (I.S.), incl. adoptions of European and / or international standards as Irish Standards listed on www.standards.ie
- access to the Tailored Updating Service [Band 1 – 15 standards monitored]

Click2View
Tailored Updating

Click2View

Are you looking for a better way of managing your standards library?

“Click2View” is the easiest way for your organisation to access full text standards from your desk.

“Click2View” provides a full text virtual library, which gives you unlimited company-wide full text access to a user defined group of standards. You only pay for the standards you are interested in.

Other features include an unlimited number of prints and automatic updating. It provides a quick and easy way to share access to the standards needed by you.

And whenever one of the selected standards is updated or cancelled, the full text collection is automatically updated and the user is notified by e-mail. So you always see the very latest version of the document – vital for a good standards library.

The price of the subscription is calculated based on a number of variables –

- the number of standards,
- the number of staff with access to the computer network,
- the number of sites over which the staff are located.

For more details on the service, along with a link to the terms & conditions and an order form, go to www.standards.ie and click on the *Online catalogue of Irish standards - guest user* and then click on the ‘Click2View’ icon in the left hand margin. It also has an online subscription price calculator.

Tailored Updating

Standards mean quality but they change all the time. Out of date Standards can be a liability. QA programmes like ISO 9000 insist you keep up to date and it makes good business sense.

With yearly subscription starting from €109, Tailored Updating is the most efficient and inexpensive way of keeping current; it’s used all over the world by thousands of companies and has 15 years of proven reliability.

All you need do is provide a list of the Irish, US, International and foreign standards you want monitored - it could be 10 or 1000’s. You receive an initial report detailing the current status of each Standard. Your list is then monitored everyday and you are automatically notified whenever one of your Standards is revised or cancelled.

In addition to the monitoring service you can also improve efficiency by joining the Standing Order Plan which automatically delivers relevant revisions as they are published.

Note: SIS Subscribers receive a 40% discount for Irish Standards on the Click2View subscription price and are entitled through the Tailored Updating service to have 15 documents monitored free of charge.

Standard Sales

Visit our website for a fully searchable, up-to-date, online catalogue of all Irish Standards.

- Indigenous Irish Standards (I.S.)
- Adopted European Standards (I.S. EN, I.S. EN ISO/IEC)
- Adopted International Standards (I.S. ISO/IEC)

Check the availability of a Standard in your field, confirm the latest edition and price... it has never been easier!

Take a few seconds to register and you have access to our partner SAI Global ILL Publishing’s database of over 850,000 worldwide Standards, plus you can plan orders online.

If you are a regular Standards user, we will set you up to download almost any Irish Standard and tens of thousands of others immediately - right at your desk!

And when you have ordered, remember to check out our TAILORED UPDATING Service - to keep you up-to-date.
