

Airport and Aviation Security Services Standards Committee

AASS Committee

Annual Report 2010

Scope

1. To advise NSAI on the need for, and the contents of, Standards, Codes of Practice, National Forewords/National Annexes to relevant European Standards as deemed necessary or other publications dealing with Airport and Aviation Security Services.
2. To monitor the activities of relevant CEN (European Committee for Standardisation) and ISO (International Organisation for Standardisation) Technical Committees, in particular CEN PC 384 Airport and Aviation Security.
3. To provide NSAI with commentary and advise on voting on proposed European Standards (EN) and International Standards (ISO).
4. To put forward national representation to relevant European and International standardisation Technical Committees/Working Groups, where required.

AASS Airport and Aviation Security Standards Committee

1. Introduction

AASS was primarily established to monitor the work of CEN PC 384 which is in the process of developing a standard for the provision of aviation security. Members of the NSAI committee have been very active at CEN level with a number of members participating in the work at CEN level.

2. Membership

The Airport and Aviation Security Standards Committee represents a wide range of interests within the Airport and Aviation Security Sector.
