

TAILORED UPDATING

WITH STANDARDS CHANGING DAILY – ARE YOU MANAGING?

Your business relies on standards. But standards are constantly being updated. Maintaining your own library of standards can be time consuming and costly. As standards enable your business to provide consistent quality, providing your customers with assurance and confidence when purchasing your products or services, out-of-date standards can be a liability. Quality Systems such as ISO 9001 or similar require companies to comply with audited procedures and assessments.

TAILORED UPDATING SERVICE

The Tailored Updating Service from *SAI Global – ILI Publishing* offers you an efficient and inexpensive way of alerting you to changes in your standards. This allows your engineers or designers to assess the impact on critical development projects.

Thousands of customers have relied on this monitoring service for over twenty years

Setting this service up is quick and easy. Simply provide our customer services team with a list of all the standards you want to be monitored – this could be 1 or it could be 1000's. You will receive an initial report detailing the current status of each standard. Your list is then monitored regularly and you automatically receive a sequential notification whenever any of your standards are revised or cancelled. Annually you will receive full details of the standards we are monitoring for you, providing the opportunity to review your requirements and continue your subscription. You can amend your list at anytime during your subscription.

ORDERING YOUR STANDARDS — MADE EASY WITH THE STANDING ORDER PLAN (SOP)

You can further improve efficiency by choosing one of our flexible and convenient purchase options. This service is provided at no extra cost – you only pay for the standards you wish to receive.

Basic Notification (All customers)

We will notify you of any changes to your standards, and you can then decide if you wish to purchase revised editions.

SOPa

You can choose to automatically purchase a single copy of the latest standard(s) on your list as soon as they are published. You will be invoiced for the cost and delivery of the standard(s) at our competitive prices.

SOPb

You can choose to automatically purchase the most critical standards on your list and update notifications only for the others. You can also purchase multiple copies of standards.

Starting from as little as €109, per annum, your business would always have the latest information available.

Order your automated standards update and ordering service now and we'll do the hard work for you.

Visit www.standards.ie today

Complete this form and return with your list of standards for monitoring.

You will receive an initial validation report; thereafter, your list of standards will be monitored regularly for twelve months at which time we will invite you to renew your subscription. You will be alerted immediately if any of your documents are amended, cancelled or superseded. We will invoice you on receipt of your list
