- Swift 3000

Sustainability and Built Environment

Certification of construction products

- Pipes, Cement, Timber, Bitumen and Agrément Certification

Certification schemes

- Insulation, Windows, Timber Manufacturers, Thermal Modelling, Air Tightness, Fire Alarm, Energy Management

Sustainability and Built Environment

• Construction Product Regulation (July 2013)

- All construction products associated with harmonised Standards must be CE marked + Declaration of Performance
- NSAI may have to apply to become notified on a product by product basis (Over 500 Standards)
- Duty to inform industry of changes and provide facility to CE mark products

• National Retrofit Plan (2013)

- NSAI played significant role in development of documents
- Upgrade 1M dwellings by 2020
- Payment methods and incentive schemes to be announced
- SEAI will withdraw their Better Energy Homes scheme

• Energy Management Scheme

- ISO50001 Worldwide standard and scheme
- Withdrawal of ISO16001

Sustainability and Built Environment

Insulation Schemes

External Wall Insulation

- Currently 302 registered down from 346 at start of year (-13%)

Full Fill Cavity

- Currently 247 registered down from 309 at start of year (-20%)

Agrément Certification

- Currently 166 certificates down from 190 at start of year (-9%)

Remainder Certification

- Currently 473 clients down from 497 at start of year (-5%)

Accreditation

- EU regulation 765/2008 – Mutual recognition makes issues surrounding cross border sales a thing of the past
- European Certification Bodies can only be accredited by their national body
- Under EU law all EU accreditation bodies are legally obliged to operate a system of mutual recognition

NSAI are currently accredited by INAB under ISO17021 for the following:

ISO 9001:2008
ISO 14001:2004
OHSAS 18001:2007
ISO 22000:2005
FSSC 22000: July 2010
ISO 50001:2011
Construction Products Regulation (EU) 305:2011
(see INAB certificate for current list of standards)

Accreditation

- NSAI are also accredited by INAB under EN 45011 for the following:
 - PEFC Chain of Custody
 - Intruder Alarm Systems
 - Verification of Beef Labelling

- NSAI's membership of the following organisations automatically allows our clients tender for work in the UK and Northern Ireland where H&S certification is prerequisite
 - SSIP – Safety Schemes In Procurement www.ssip.org.uk
 - Buildsafe NI - Public sector works tenders www.dfpni.gov.uk
