

## NSAI Pricing Structure for National Approval Schemes

The table below outlines NSAI pricing structure for National approval schemes **effective as of the 1<sup>st</sup> of January 2018**. The rates do not include additional costs that may be associated with mandatory inspection e.g. ATC inspection for national type approval. The daily rate below relates to on site inspection that may be required for approval to any of the schemes.

Extensions (when possible e.g. NSSTA extension) to the certificates below are typically charged at 50% of the base rate but this may be subject to change depending on the complexity of the extension.

Table below includes most if not all possible categories of approval. However, if a category of vehicle is not included in table below, the closest equivalent price shall be applicable.
