

NSAI Pricing Structure for National Approval Schemes

The table below outlines NSAI pricing structure for National approval schemes **effective as of the 1st of March 2022**. The rates do not include additional costs that may be associated with mandatory inspection e.g. ATC inspection for national type approval. The daily rate below relates to on site inspection that may be required for approval to any of the schemes.

Table below includes most if not all possible categories of approval. However, if a category of vehicle is not included in table below, the closest equivalent price shall be applicable.
