

# Carbon Monoxide

may be present  
**wherever solid fuel is burned**

## PROTECT YOUR HOME NOW

- 1.** Buy a CO Detector
- 2.** Check it has a CE Mark
- 3.** Ensure it complies with the EN 50291 standard
- 4.** Note the date on the end-of-life indicator
- 5.** Place close to where fuel is burned, no more than a metre off ground
