Contents

1 Introduction

NSAI/ETC/TC 11 is the national mirror committee to IEC/TC 108 and CLC/TC 108X, with responsibility for coordinating the development of standards for electronic equipment within the field of audio/video, information technology and communication technologies.

The industry currently has 4 experts involved in international work.

The committee did not meet in 2024.

2 Scope of TC

Responsible for coordinating the development of standards for electronic equipment within the field of audio/video, information technology and communication technologies. TC 11 members are active participants in the international standards work of both IEC/TC 108 and CENELEC/TC 108X. The Committee takes a particular interest in the development of IEC 62368-1, which deals with safety requirements for audio/video, information and communications technology equipment and the maintenance of IEC 60950-1. Both standards are listed as harmonized European Standards under the EC "Low Voltage Directive", 2014/35/EU.
The committee mirrors the following international committees:
