1 Chairperson's Statement

2024 built on previously productive years for NSAI/ETC/TC 12, with two well attended meetings taking place with lively discussions on many points.

The committee remains focussed on participating in the work of IEC TC 46, TC 86 and TC 100, and CLC TC 100X and increasing representation from Irish stakeholders in these areas.

Thank you to the committee members and NSAI secretary for their contributions and participation in 2024.

2 Introduction

NSAI/ETC/TC 12 was established over 30 years ago as an ETCI sub-committee, to coordinate the national input to the work of IEC and CENELEC.

ETC/TC 12 monitors and participates in the work of International committees IEC/TC 46, IEC/TC 86, and IEC/TC 100, and the European committee CLC/TC 100X.

Nationally, the Industries and sectors serviced by NSAI/ETC/TC 12 are Manufacturers, distributors and users of data cables, waveguides, RF connectors, microwave passive components, fibre optic cables, audio, video and multimedia equipment and systems.

3 Scope of TC

NSAI/ETC/TC 12 is responsible for co-ordinating standards development in the area of electronic communication systems. It monitors and participates in the international work of IEC/TC 46 (Cables, wires, waveguides, R.F. connectors, R.F. and microwave passive components and accessories), IEC/TC 86 (Fibre optics) and IEC/TC 100 (Audio, video and multimedia systems and equipment).

The work of IEC/TC 100 covers a wide area of technology including specifications for the performance, methods of measurement, application and interoperability of consumer and professional AV and multimedia systems and equipment.

The work of TC 12 assists in the development of European Standards (EN), which in turn are transposed into voluntary Irish Standards (I.S. EN).

The committee mirrors the following international committees:

Committee Name	Committee Title	Membership
IEC/TC 46	Cables, wires, waveguides, RF connectors, RF and microwave passive components and accessories	O-Member
IEC/TC 86	Fibre optics	O-Member
IEC/TC 100	Audio, video and multimedia systems and equipment	P-Member

In addition to the above the committee also actively monitors the work of CLC/TC 100X.

5.3 Regulatory development/update

While the primary focus of NSAI/ETC/TC 12 is on international standards development, the committee is aware of a number of pieces of new legislation relevant to the work of the committee, these include;

- Ecodesign for Sustainable Products Regulation;
- A.I. Act;
- Cyber Resilience Act; and
- General Product Safety Regulation.

6 Irish Publications/Reviews

6.1 Publications

The Committee did not publish any deliverables this year.

6.2 Reviews

There are no existing national publications, so no reviews were carried out in 2024.

7 Work programme for 2025 onwards

The committee will continue to meet twice annually and recognises the need to recruit new committee members to ensure levels of engagement with IEC and CENELEC can be maintained and increased.
