## 1 Chairman's Statement

The inaugural meeting of the Construction Standards Consultative Committee was held in November 2017.

Following this meeting, a roadmap was prepared for the development of a comprehensive Work Programme with the aim of ensuring the most efficient use of resources in supporting the sectoral needs of standards activities across the construction spectrum in Ireland.

In 2018 two main committee meetings took place in April and November. In addition three working group meetings were convened, to assist in the preparation of the Construction Sector Work Programme (2019-2021), with very constructive inputs from the representatives of the key industry stakeholders.

Throughout 2018 considerable progress was made in the development of the Work Programme (2019-2021) in consultation with the key stakeholders.

Members also identified key focus areas for improvement around standards activities supporting the construction sector including, among other areas:

- the promotion and communication of standards;
- the recruitment of relevant experts on an ongoing basis;
- the increase of the level of engagement by experts at international level;
- the development of a formal structured training programme for Members participating in standards committees and working groups (at national and international level).

Valuable input by Members informed the development of the Work Programme for 2019-2021 and resulted in the establishment of a new WG for the promotion and communication of standards and standards activities in the construction sector.

It is intended to publish the Construction Sector Work Programme (2019 – 2021) in the second quarter of 2019.

I look forward to the continuing constructive engagement and collaboration of the key stakeholders in working with NSAI in this very challenging time for the Construction industry.

*Kevin Sheridan*

*Chair NSAI Construction Consultative Committee (CCC)*

*17/1/2019*

## 2 Introduction

The construction sector is one of Europe's biggest industries employing more than 12 million EU citizens. It is estimated that in the European Union 26 million workers depend on the construction sector in one way or another. It represents in Europe some 10% of GDP<sup>1</sup>.

The government of Ireland strategy for the Construction Sector i.e. '*Construction 2020 A Strategy for a Renewed Construction Sector*' confirms the need for a strong and sustainable construction sector in Ireland. The Strategy sets out a programme of action to "*deliver a strong, sustainable, well – financed, competitive and innovative approach to construction and housing, building to the highest standards, at realistic levels and with consumer protection at its heart.*"<sup>2</sup>

The construction industry by its nature is dependent on the voluntary standardization process, nationally and internationally, to establish and share best practice and support regulation. Standards form part of the technical and regulatory framework for national and EU policies for the built environment, energy usage, sustainability, open market and climate change.

The European Standards program for the construction sector, in which NSAI participates, includes more than 3000 work items on product standards and test methods, of which about 600 standards are or will be harmonized under the Construction Products Regulation (CPR) along with approximately 1500 supporting standards (test methods)<sup>1</sup>.

NSAI Standards budget in 2018 was circa 3 million euro and a staff of about 22 people. 30% of these resources were allocated to supporting the standardization needs of the construction industry, nationally and internationally. Construction related projects account for up to 50 % of NSAI's national standardisation work programme. There are around 320 experts participating in standards development activities nationally on construction related committees or directly engaged in international standards development.

Experts and Stakeholders from the construction industry continue to make considerable commitments to standards development activity in the construction sector in Ireland to ensure relevant standards are available to industry and regulators.

Nationally there are approximately 140 Technical bodies engaged in construction related standards development activities. A Technical Body (TB) may be a Technical Committee (TC), a Sub – Committee (SC) a Working Group (WG) or a Workshop (CEN only). See Annex A for a list of the main national construction related Technical Bodies.

These Committees/Technical Bodies operate under the functions outlined in the NSAI Act 1996 and the standard NSAI Terms of Reference for Consultative Committees. The current NSAI Construction Standards Consultative Committee was established in 2017 with its inaugural meeting taking place in November 2017. There were 2 meetings of the main Consultative Committee held in 2018.

The primary objective of the Committee is to provide NSAI with expert advice on general and standardization policy matters relating to construction in Ireland. The Chairs of all the NSAI Construction Committees are among the many stakeholders participating in the work of the Construction Standards Committee.

---

<sup>2</sup> Construction 2020, A Strategy for a Renewed Construction Sector, Government Publications May 2014

This annual report provides a summary of the activities of the Construction Standards Consultative Committee in 2018.

Further detail of the activities in 2018 of individual construction related Technical Committees is available in the relevant individual NSAI construction committee annual reports for 2018.

### 3 Scope of TC

To mirror the work of the CEN Construction Sector Network Forum which currently advises CEN BT on construction related matters.

## 4 Structure and Membership

### 4.1 Structure

The Figure below illustrates the structure of the Committee:

## 4.2 Members

Organisation	Name	Role
Consultant	Kevin Sheridan	Chair Construction Standards Consultative Committee)
CIF	Sean Downey	Deputy Chair CCC
RIAI	Peter Andrews	Member
DHPLG	Sean Armstrong	Chair Retrofit Committee Chair Energy Performance of Buildings
IGBC	Pat Barry	Member
Independent	Michael Byrne	Chair Aggregates Panel
Solas	Jo Cahalin	Member
Engineers Ireland	Murt Coleman	Member
NDA	Gerald Craddock	Chair Universal Design Committee
ACEI	Richard Crowe	Member
Consultant	Liam Hearne	Chair Gas Standards Consultative Committee
IBEC	David Howard	Member
NDA	James Hubbard	Member
NSAI Agrément	Martin English	Member
Housing Agency	Norman Jackson	Member
Garland Consulting	Noel Kane	Chair Masonry Panel
Enterprise Ireland	Neil Kerrigan	Member
Society of Chartered Surveyors of Ireland	Noel Larkin	Member
Consultant	Frank Lee	Member
Dept of Agriculture, Food and Marine	Robert Leonard	Member
Colas Ireland	Gearoid Lohan	Chair Road Standards Consultative Committee
Golder	Michael Maher	Chair Pyrite Committee
Kavanagh, Mansfield and Partners	Jim Mansfield	Chair Eurocodes Committee
SEAI	Paul Martin	Chair Building Services Standards Committee
CEI	John McAuley	Member
Roadstone	Dermot McCarthy	Member
Wavin	Fergal McGeough	Member
Arcdox	Ralph Montague	Chair BIM Standards Committee
Consultant	Michael Murray	Chair Slating and Tiling Standards Committee
Irish Water	Liam Murray	Member
OPW	Ciaran O'Connor	Member
CIT	Brian O'Rourke	Chair Concrete Standards Committee
LGMA	Mairead Phelan	Member
Consultant	Bill Robinson	Chair Timber Standards Consultative Committee
Michael Slattery and Associates	Michael Slattery	Chair Fire Safety Standards Committee
ICF	Liam Smyth	Member
Tricel	Michael Stack	Member
Homebond	Conor Taaffe	Member
DHPLG	John Wickham	Member
NSAI	James Clarke	National secretary support team
NSAI	Ken Murphy	National secretary support team
NSAI	Elizabeth O'Ferrall	National secretary support team
NSAI	Alice Hanley	National secretary support team
NSAI	Pat Hayes	National secretary support team
NSAI	Fergal Finn	National secretary support team
NSAI	Sabina Seneviratne	National secretary support team
NSAI	Stewart Hickey	National secretary support team
NSAI	Yvonne Wylde	Manager Standards Technical
NSAI	Therese Clarke	Technical Secretary CCC

## 5 Summary of 2018 Activities

### 5.1 Meetings

Committee members attended the following national meetings in NSAI as follows:

Meeting No.	Date
1. NSAI/TC006 Main committee	25/4/2018
2. NSAI/TC006 WG1	10/9/2018
3. NSAI/TC006 WG2	10/9/2018
4. NSAI/TC006 WG1	1/10/2018
5. NSAI/TC006 WG2	1/10/2019
6. NSAI/TC006 Main committee	14/11/2018

### 5.2 National Work

#### 5.2.1 Development of the national work programme for construction standards

The NSAI Construction Sector Work Programme provides an overview of the main standardization developments and strategic priority areas for 2019-2021.

Given the scale of the domain, the Work Programme has been developed in a format that will enhance industry stakeholders' abilities to identify areas of interest, and subsequently improve their ability to benefit from, and engage with National and International Standardization.

Contained within the Work Programme is a comprehensive and detailed list of National Committees (NC) related to construction. Each NC has been linked to the "mirrored" International Committee.

The direction of Standardization activities has been guided by the key stakeholders within the Construction Consultative Committee, thereby ensuring the efficient use of NSAI resources.

The data contained within the Work Programme represents a "snapshot in time" of a domain that is continuously updating. Going forward Standards Officers will update the data at regular intervals.

Some sample extracts from the Work Programme database can be seen in Annex B.

#### 5.2.2 Establishment of NSAI/TC 006 Working groups

WG1 provided advise/input into the development of the standards programme of work in terms of support required for national regulatory/policy framework.

WG2 provided advise/input into the development of the standards programme of work in terms of support required for trade in the construction sector and for manufacturers supplying to the industry (national and export).

WG3 was established following the TC 006 meeting in November 2018 with a plan for the first meeting to be held in January 2019. The function of WG 3 is to consider and advise in relation to communication, promotion and education needs in relation to construction standards across the industry.

### 5.2.3 Key focus areas

Members identified issues/areas for improvement to inform the construction standards work programme going forward, including the following:

- i. Increasing the number of experts and level of expert engagement in some areas of standardisation nationally e.g. Water Supply, Waste Water, Timber, Masonry Panel, and internationally e.g. Slating and tiling, Building services, BIM.
- ii. Recruiting new Members, in particular newly qualified/ in the early stage of their career, scientists and engineers to become involved in standardisation.
- iii. Improving promotion of standards and standards development activities within the construction industry.
- iv. Developing a training programme for experts involved in standards development

## 5.3 Regulatory Development/Update

Regulatory development/updates specific to NSAI construction related Technical Committees are available in the relevant annual reports.

The following National and European regulatory and policy developments related to the construction industry were brought to the attention of Members during 2018:

### 5.3.1 Irish Building Regulations - Public consultation on the following

Part L (Conservation of Fuel and Energy) Dwellings, the accompanying Technical Guidance Document L for Dwellings; and Draft DEAP 4.1

Part F (Ventilation), the accompanying Technical Guidance Document F; a draft Installation and Commissioning of Ventilation Systems for Dwellings - Achieving Compliance with Part F 2018

Directive 2010/31/EU of the European Parliament and of the Council on the energy performance of buildings (Recast) sets requirements at an EU level for Member States to improve the energy performance of buildings and to make an important contribution to the reduction of greenhouse gas emissions.

As part of the implementation of this directive it is proposed to amend Building Regulations Part L Conservation of Fuel and Energy- Dwellings, and Building Regulations Part F Ventilation.

### 5.3.2 Construction Products Regulation

Roadmap for the implementation of the Construction Products Regulation (CPR)

<http://ec.europa.eu/docsroom/documents/27302>

Survey on users' need for information on construction products

[https://publications.europa.eu/survey\\_CPR\\_users\\_needs](https://publications.europa.eu/survey_CPR_users_needs)

Construction Products Regulation – Survey on information needs among Members States

Authorities <https://ec.europa.eu/docsroom/documents/28684>

CPR – EC Consultation on review

[https://ec.europa.eu/growth/sectors/construction/productregulation/review\\_en](https://ec.europa.eu/growth/sectors/construction/productregulation/review_en)

## 6 Irish Publications

See Annex C for a list of Irish National publications, National and International publications adopted by NSAI, related to the construction industry, published in 2018.

## 7 Work programme for 2019 onwards

Completion of the construction standards Work Programme for the construction sector 2019-2021, end of first quarter 2019.

Publication of the construction sector standards Work Programme 2019-2021.

Planned meetings for the newly established WG3 – Communication and promotion of standards.

Development of Work Programme for WG3 – Communication and promotion of standards.

Continued function in providing NSAI with expert advice on general and standardization policy matters relating to construction in Ireland.

### Back Row- From Left to right

**Ciaran O'Connor** (OPW), **Brian O'Rourke** (Chair Concrete Committee), **Dr Michael Murray**, (Chair Slating and Tiling Committee), **Gearoid Lohan**, (Chair Roads Committee), **James Hubbard**, ((A) Universal Design Committee), **Jim Mansfield**, (Chair Eurocodes Committee), **Liam Hearne** (Chair Gas Stds Committee), **Michael Slattery** (Chair Fire Stds Committee), **Ralph Montague** (Chair BIM Committee), **Richard Crowe**, (ACEI) , **John McAuley** ( Chair Electrotechnical Committee, **Noel Larkin** (SCSI), **Murt Coleman** (Engineers Ireland) , **Dermot McCarthy** (Aggregates Panel), **Norman Jackson** (Housing Agency), **Pat Barry** (IGBC), **Martin English** (NSAI Sustainability and Built Environment), **Peter Andrews**, (RIAI), **Liam Smyth**, (ICF), **John Wickham** (DHPLG).

### Front Row- Left to right

**Bill Robinson**, (Chair Timber Standards Committee), **Noel Kane** (Chair Masonry Panel), **Kevin Sheridan**, (Committee Chairman CSCC,) **Yvonne Wylde**, (Manager Standards Technical) **Therese Clarke**, (Standards Officer NSAI , Secretary Construction Standards Committee)

## Annex A

### List of NSAI National Technical Bodies (construction)

Technical Body	Title
NSAI/TC 8/WG 22	Trussed rafters and timber in buildings
NSAI/TC 8/WG 23	Timber frame construction
NSAI/TC 58/SC 1	Testing and categorization
NSAI/TC 58/SC 2	Remediation works (Standby)
NSAI/TC 12	Slating and Tiling
NSAI/TC 3/SC 3	Aggregates Panel
NSAI/TC 8	Timber
NSAI/TC 17/SC 5/WG 6	Noise Reducing Devices
NSAI/TC 17/WG 1	Asphalt
NSAI/TC 3/SC 1	Concrete
NSAI/TC 17/WG 2	Aggregates Panel
NSAI/TC 3	Concrete Committee
NSAI/TC 17	Roads Standards
NSAI/TC 17/WG 3	Binders
NSAI/TC 63	Concrete Blocks Committee
NSAI/TC 17/WG 7	SR 16_SR 18
NSAI/TC 15/SC 2	Concrete
NSAI/TC 15/SC 3	Steel
NSAI/TC 15/SC 7	Geotechnics
NSAI/TC 16	Fire Safety
NSAI/TC 58	Reactive pyrite in sub-floor hardcore material
NSAI/TC 15	National Eurocodes
NSAI/TC 6	Construction Consultative Committee
NSAI/TC 47/SC 22	Building Information Modelling
NSAI/TC 17/SC 5/WG 1	Crash Barriers, safety fences, guard rails and bridge parapets
NSAI/TC 17/SC 5/WG 2	Horizontal Road Signs
NSAI/TC 17/SC 5/WG 3	Vertical Signs

Technical Body	Title
NSAI/TC 31/SC 2/WG 16	Factory production control
NSAI/TC 31/SC 2/WG 18	External thermal insulation composite systems
NSAI/TC 31/SC 2/WG 19	Polyethylene foam
NSAI/TC 31/SC 2/WG 3	Mineral wool
NSAI/TC 12/SC 11	Double skin metal faced insulating sandwich panels for roofing and cladding
NSAI/TC 31/SC 2	Thermal insulating materials and products
NSAI/TC 16/WG 1	Fire Safety in buildings
NSAI/TC 47/SC 25/WG 2	Mirror Committee of CEN TC135 WGs
NSAI/TC 17/SC 5	Road Equipment
NSAI/TC 47/SC 2	Windows & Doors
NSAI/TC 3/SC 2	Masonry
NSAI/TC 15/SC 1	Actions
NSAI/TC 15/SC 5	Timber
NSAI/TC 15/SC 6	Masonry
NSAI/TC 15/SC 20	HG Bridges
NSAI/TC 15/SC 21	HG Fire
NSAI/TC 19	Energy Performance of Buildings
NSAI/TC 46	Construction Products
NSAI/TC 17/SC 5/WG 11	Variable Message Signs
NSAI/TC 8/WG 21	Timber grading - Machine and visual strength grading
NSAI/TC 12/SC 1	Design of timber battens and fixings
NSAI/TC 12/SC 2	Concrete roofing tiles
NSAI/TC 12/SC 3	Roofing underlays
NSAI/TC 12/SC 4	Fibre-cement tiles
NSAI/TC 8/WG 24	Timber fencing/preservatives
NSAI/TC 17/WG 4	Surface Dressing
NSAI/TC 17/SC 5/WG 10	Passive Safety of Support Structures for Road Equipment
NSAI/TC 31/SC 2/WG 1	Common general test methods
NSAI/TC 31/SC 2/WG 10	Building equipment and industrial installations
NSAI/TC 31/SC 2/WG 11	Vacuum insulation products (VIP)
NSAI/TC 31/SC 2/WG 12	Prefabricated products of bonded expanded perlite

<b>Technical Body</b>	<b>Title</b>
NSAI/TC 31/SC 2/WG 14	Terminology
NSAI/TC 31/SC 2/WG 20	Expanded clay lightweight aggregates
NSAI/TC 31/SC 2/WG 21	Reflective insulation products
NSAI/TC 31/SC 2/WG 23	Vegetable fibers based products (VFBP)
NSAI/TC 31/SC 2/WG 9	Mineral bonded wood wool (including multi-layered products)
NSAI/TC 8/WG 25	Wood-based panels
NSAI/TC 8/WG 26	Round and sawn timber
NSAI/TC 19/WG 1	Overarching Standards
NSAI/TC 19/WG 2	Buildings
NSAI/TC 19/WG 3	Technical Building Systems
NSAI/TC 47/SC 25/WG 1	Balloting for CEN TC 135
NSAI/TC 3/SC 4	Mica/Pyrite Blocks
NSAI/TC 47/SC 25	Execution of steel structures and aluminium structures
NSAI/TC 47/SC 10	Slip resistance of pedestrian surfaces - Methods of evaluation
NSAI/TC 15/SC 4	Composite Steel/concrete
NSAI/TC 61	Chimney Adhoc
NSAI/TC 46/WG 3	Planning
NSAI/TC 46/WG 4	General
NSAI/TC 46/WG 5	Fire
NSAI/TC 47/SC 2/WG 1	Building Hardware
NSAI/TC 47/SC 21/CEN-CLC-BT WG 9	CEN-CLC-BT WG009
NSAI/TC 47/SC 21/WG 215	CEN-BT-WG 215
NSAI/TC 16/WG 5	Emergency Lighting
NSAI/TC 16/WG 2	Fire Alarms
NSAI/TC 16/WG 3	Fire Service
NSAI/TC 16/WG 4	Fire Safety of furniture & textiles
NSAI/TC 31	Building Services Committee
NSAI/TC 31/SC 4	Ventilation for buildings
NSAI/TC 31/SC 3/WG 11	Revision of EN 14624
NSAI/TC 31/SC 3/WG 6	Revision of EN 378
NSAI/TC 31/SC 3	Refrigerating systems, safety and environmental requirements

Technical Body	Title
NSAI/TC 31/SC 5	Air filters for general air and other gases cleaning
NSAI/TC 10/WG 2	Pipes
NSAI/TC 40	Retrofit of existing dwellings
NSAI/TC 33/SC 3	Certification and Inspection of Cranes
NSAI/TC 33/SC 2	Tower Cranes and Self Erecting Cranes
NSAI/TC 33/SC 4	Bridge and gantry cranes
NSAI/TC 33/SC 1	Cranes Safety General
NSAI/TC 47/SC 23	Facilities Management
NSAI/TC 11/WG 6	SR 66 Drafting
NSAI/TC 11/WG 2	Small wastewater treatment systems
NSAI/TC 11/WG 3	Water service road furniture
NSAI/TC 11/WG 1	Pipes and Networks
NSAI/TC 11/WG 5	Use of treated wastewater
NSAI/TC 11	Wastewater Engineering
NSAI/TC 11/WG 4	Guidance to management of FOG

<b>ROAD BUILDING AND MAINTENANCE</b>	S.R. CEN/TS 12697-50:2018	Bituminous mixtures - Test methods - Part 50: Resistance to scuffing
<b>ROAD SAFETY</b>	I.S. EN 1436:2018	Road marking materials - Road marking performance for road users and test methods
<b>ROAD SAFETY</b>	I.S. EN 1793-2:2018	Road traffic noise reducing devices - Test method for determining the acoustic performance - Part 2: Intrinsic characteristics of airborne sound insulation under diffuse sound field conditions
<b>ROAD SAFETY</b>	I.S. EN 1793-6:2018	Road traffic noise reducing devices - Test method for determining the acoustic performance - Part 6: Intrinsic characteristics - In situ values of airborne sound insulation under direct sound field conditions
<b>ROAD SAFETY</b>	I.S. EN 1794-1:2018	Road traffic noise reducing devices - Non-acoustic performance - Part 1: Mechanical performance and stability requirements
<b>SANITARY APPLIANCES</b>	I.S. EN 997:2018	WC pans and WC suites with integral trap
<b>SANITARY APPLIANCES</b>	I.S. EN 14055:2018	WC and urinal flushing cisterns
<b>SANITARY APPLIANCES</b>	S.R. CEN/TR 17221:2018	Guidance on the application of CE marking and preparation of Declaration of Performance for sanitary appliances
<b>SOLAR ENERGY</b>	I.S. EN 12977-1:2018	Thermal solar systems and components - Custom built systems - Part 1: General requirements for solar water heaters and combisystems
<b>SOLAR ENERGY</b>	I.S. EN 12977-2:2018	Thermal solar systems and components - Custom built systems - Part 2: Test methods for solar water heaters and combisystems
<b>SOLAR ENERGY</b>	I.S. EN 12977-3:2018	Thermal solar systems and components - Custom built systems - Part 3: Performance test methods for solar water heater stores
<b>SOLAR ENERGY</b>	I.S. EN 12977-4:2018	Thermal solar systems and components - Custom built systems - Part 4: Performance test methods for solar combistores
<b>STRUCTURES</b>	I.S. EN 1992-4:2018	Eurocode 2 - Design of concrete structures - Part 4: Design of fastenings for use in concrete
<b>STRUCTURES</b>	I.S. EN 15129:2018	Anti-seismic devices

Sector Description	Reference	Title_NSAI
<b>STRUCTURES</b>	S.R. CEN/TR 17079:2018	Design of fastenings for use in concrete - Redundant non-structural systems
<b>STRUCTURES</b>	S.R. CEN/TR 17080:2018	Design of fastenings for use in concrete - Anchor channels - Supplementary rules
<b>STRUCTURES</b>	S.R. CEN/TR 17081:2018	Design of fastenings for use in concrete - Plastic design of fastenings with headed and post-installed fasteners
<b>STRUCTURES</b>	S.R. CEN/TR 17231:2018	Eurocode 1: Actions on Structures - Traffic Loads on Bridges - Track-Bridge Interaction
<b>SURFACE TRANSPORT ELECTROTECHNICAL SYSTEMS</b>	I.S. EN 50556:2018	Road traffic signal systems
<b>TEXTILES</b>	I.S. EN 13361:2018	Geosynthetic barriers - Characteristics required for use in the construction of reservoirs and dams
<b>TEXTILES</b>	I.S. EN 13362:2018	Geosynthetic Barriers - Characteristics required for use in the construction of canals
<b>TEXTILES</b>	I.S. EN 13491:2018	Geosynthetic barriers - Characteristics required for use in the construction of tunnels and associated underground structures
<b>TEXTILES</b>	I.S. EN 13492:2018	Geosynthetic barriers - Characteristics required for use in the construction of liquid waste disposal sites, transfer stations or secondary containment
<b>TEXTILES</b>	I.S. EN 13493:2018	Geosynthetic barriers - Characteristics required for use in the construction of solid waste storage and disposal sites
<b>TEXTILES</b>	I.S. EN 15382:2018	Geosynthetic barriers - Characteristics required for use in transportation infrastructure
<b>TEXTILES</b>	I.S. EN 16993:2018	Geosynthetic barriers - Characteristics required for use in the construction of storage lagoons, secondary containment (above and below ground) and other containment applications for chemicals, polluted water and produced liquids
<b>TEXTILES</b>	I.S. EN 16994:2018	Clay Geosynthetic Barriers - Characteristics required for use in the construction of underground structures (other than tunnels and associated structures)
