

National Guidance to Harmonised Standards falling under remit of Construction Products Regulation (EU) No 305/2011
January 2022

NSAI has produced additional guidance to some harmonised standards (hENs) in the form of National Annexes or Standard Recommendations (SRs), setting out appropriate minimum performance levels for specific intended uses of the product in Ireland. Engineers, architects, specifiers and builders are free to demand performance in excess of these levels.

For Harmonized Standards, check the [EU site](#) to confirm that the Standard is cited in the Official Journal. Only cited Standards give presumption of conformance to New Approach Directives/Regulations.

Dates of withdrawal of national standards are available from NSAI.
